### **Programmable Precision High Power DC Power Supply**

- High Power Density: up to 15 kW in 3U, 30 kW in a 6U chassis
- Wide Voltage Range: 0-10V up to 0-1000V, from 4 to 30 kW
- Fast Load Transient Response: Protection from undesired voltage excursions
- Low Ripple and Noise
- Hardware Trigger (Ethernet Option)
- Parallelable up to 150 kW
- Sequencing: Free system controller & speed up test
- Low audible noise: Temperature controlled variable speed fans

The Sorensen SG Series (hereafter SG Series) represents the next generation of high power programmable DC power supplies. The SG Series is designed for exceptional load transient response, low noise and the highest power density in the industry. With a full 15 kW available down to 20VDC output in a 3U package the SG leads the industry in power density. The power density is enhanced by a stylish front air intake allowing supplies to be stacked without any required clearance between units.

At the heart of the SG series is a 5 kW power module. Depending on the output voltage, one to six modules can be configured in a single chassis to deliver 5 kW to 30 kW of power. Combinations of these chassis can then be easily paralleled to achieve power levels up to 150 kW. Paralleled units operate like one single supply providing total system current. Available in two control versions, the SGA has basic analog controls, while the SGI provides intelligent control features.

## 10-1000 V

### 5-6000 A

#### SGI: Advanced Intelligent Control

(Sorensen General purpose Intelligent) The SGI combines onboard intelligent controls with the outstanding power electronics common to all SG family supplies. These controls enable sophisticated sequencing, constant power mode and save/recall of instrument settings. Looping of sequences makes the SGI ideal for repetitive testing. An impressive vacuum fluorescent graphical display in eight languages, context sensitive "soft" keys and front panel keyboard simplify programming of the SGI.

#### SGA: Outstanding Value - Analog Control

(Sorensen General purpose Analog) The SGA, with its industry leading performance, is available for customers requiring simple front panel analog controls or external control. With the same high performance power electronics as the SGI, the SGA provides essential features like 10- turn potentiometers for setting voltage and current, 3 ½ digit LED readout plus front panel over-voltage protection (OVP) preview/adjustment and reset.

# SG Series : Product Specifications

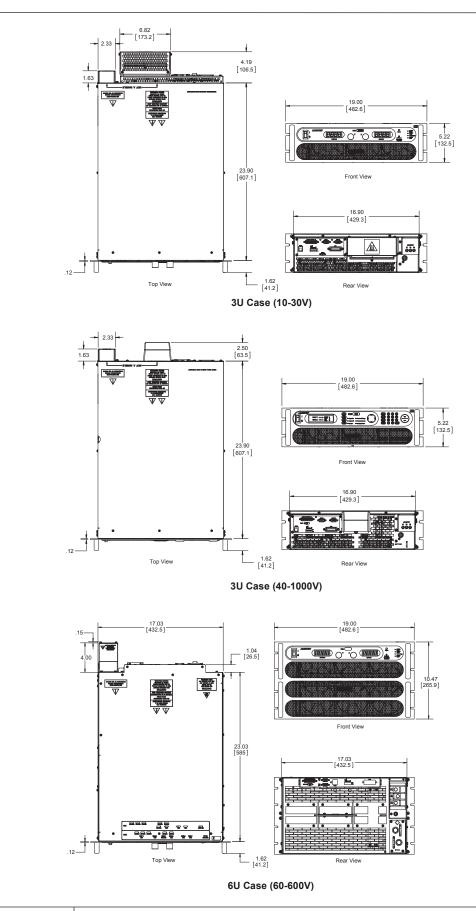

Common										
Remote Sense To		Terminals are provided to sense output voltage at point of load. Maximum line drop 5% of rated voltage per line for 40-100V models, line drop 1V of rated voltage per line for 10-20V models, 1.5V for 30V models, 2% of rated voltage per line for models 160V and greater. (Greater line drop is allowed, but output regulation specifications no longer apply).								
Parallel Operation		Up to 5 units may be paralleled for additional current within the power supply single-unit specifications, with exception of the DC output current set accuracy. Additional paralleled SG units will add 0.3% inaccuracy per unit. To parallel more than 5 units, contact factory.								
Series Operation		Up to 2 units (see Output Float Voltage)

\* By way of paralleling 3U supplies

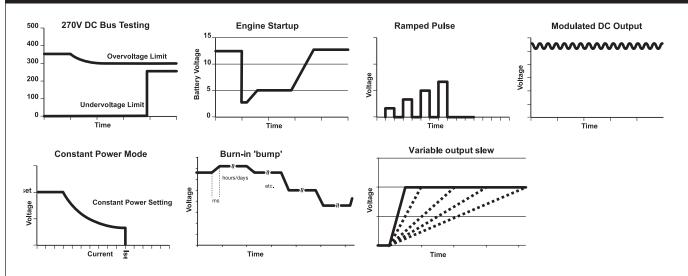

## SG Series : Product Diagram

## **SG Series**

### 4–150 kW

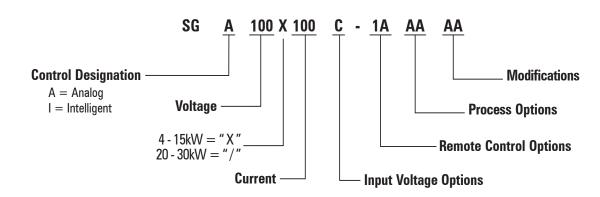

#### Advanced Power Simulation

SGI model provides constant power mode allowing independent setting of the max voltage, current and power

SGI / SGA Comparison Chart					
Feature	SGA	SGI			
Modular Design	•	•			
Fast Load Transient	•	•			
Parallelable	•	•			
Analog & Digital Summing	Optional	•			
Direct Front Panel V/I Control	•	•			
3½ Digit LED Readout	•				
Graphics Display		•			
Sequencing		•			
Save/Recall Setups		•			
System Power Readouts		•			
Constant Power Mode		•			
IEEE-488.2/RS-232C	Optional	RS-232C Std, IEEE-488.2 Optional			
LXI Class C Ethernet/ RS-232	Optional	RS-232C Std, Ethernet Optional			
Front Panel Dust Filter	Optional (3U unit only)	Optional (3U unit only)			
Environmental					
Operating Temperature	0 to 50° C				
Storage Temperature	-25° C to 65° C				
Humidity Range	Relative humidity up to 95% non-condensing, 0° C – 50° C				
Altitude	Operating full power available up to 5,000 ft. (~1,500 m), derate 10% of full power for every 1,000 feet higher; non-operating to 40,000 ft. (~12,000 m)				
Cooling	Front and side air inlet, rear exhaust. Temperature controlled, variable speed fans. Units may be stacked without spacing.				
Regulatory	Certified to UL/CSA 61010 and IEC/EN 61010-1 by a NRTL, CE Compliant, Semi-F47 Compliant. LVD Categories: Installation Category II: Pollution Degree 2; Class II Equipment: for Indoor Use Only, back panel not user accessible (see user manual for installation instructions) EMC Directive, EN 61326:1998				
Front Panel Dust Filter	30 PPI (Pores Per Inch) - must ensure adequate airflow and / or de	rate max. temperature. 3U unit only.			

## **SG Series**

(For units with greater than 3 digits, Voltage/Current is represented in numeric format, e.g., above "100" represents 100A. For units at 1000 and above, the voltage is represented by the format "XKX", e.g. 1K2 = 1200V and 1K0 = 1000V)

Options and Accessories	
Control Options	A: Analog I: Intelligent
Input Options	C: Input Voltage 187 / 242VAC, 3 Phase D: Input Voltage 342 / 440VAC, 3 Phase E: Input Voltage 396 / 528VAC, 3 Phase
Remote Control Options	0A: No Option1A: IEEE-488.2 + RS-232C (Note: SGI comes standard with RS-232C)1C: Ethernet + RS-232C1D: Isolated Analog Control1E: Shaft Locks (SGA series only)2A: Combined Options 1A+1D2C: Combined Options 1A+1E (SGA Only)2G: Combined Options 1C+1D2H: Combined Options 1C+1E (SGA Only)2J: Combined Options 1D+1E (SGA Only)3C: Combined Options 1A+1D+1E (SGA Only)3G: Combined Options 1C+1D+1E (SGA Only)3G: Combined Options 1C+1D+1E (SGA Only)
Process Options	AA: No option AB: Certificate of Calibration to ANSI / NCSL Z540-1 (includes Test Data)
Modifications	AJ: Front panel dust filter - factory installed - 3U unit only CV: 400Hz AC input @ 208 VAC ( does not carry CE, CSA or UL marks ) ( 6U only ) STD on 3U PF: Passive power factor correction to 0.9 (Only applicable to 40V, 60V to 800V. Included in 10V-30V, 50V and 1000V.)
Accessories	890-453-03: Paralleling Cable (for up to 5 units, requires one cable per unit placed in parallel) K550212-01: 3U Rack Slides (for 5kW, 10kW and 15kW models) K550213-01: 6U Rack Slides (for 20kW, 25kW and 30kW models) K550532-01: Front panel dust filter - field installation kit - 3U unit only 5551082-01: Optional AC input cover kit - 3U unit only
